Note

Questo modello di dati non dichiara ancora alcuna chiave; le relazioni indicate da punti derivano dai nomi delle colonne.

Dizionario dei dati

Ogni tabella e colonna di questo modello di dati è descritta nella relativa documentazione disponibile su documentation.invantive.eu, dove il poster è disponibile anche in altre lingue.

Note

Le box sono raggruppate per argomento e contrassegnate da colori diversi a seconda della categoria. Nel nodo della tabella che contiene la chiave viene tracciata una relazione; in un altro nodo viene definito un Box di colore grigio chiaro.

Argomenti

Salesforce · Account	1	**Salesforce · FeedItem**	1
Salesforce · ApexClass	1	Salesforce · Gruppo	2
Salesforce · AppMenuItem	2	Salesforce · Lead	2
Salesforce · Argomento	2	**Salesforce · ListView**	1
Salesforce · Asset	1	**Salesforce · LoginGeo**	1
Salesforce · AuraDefinitionBundle	1	Salesforce · Macro	2
Salesforce · AuthProvider	1	**Salesforce · Pricebook2**	1
Salesforce · Campagna	2	Salesforce · ProcessInstance	2
Salesforce · Cartella	1	**Salesforce · Profilo**	1
Salesforce · ContentDocument	1	**Salesforce · RecordType**	1
Salesforce · CustomPermission	2	**Salesforce · SecureAgent**	1
Salesforce · DataAssessmentFieldMetric	2	Salesforce · Sito	2
Salesforce · DuplicateRecordSet	2	Salesforce · UserProvAccount	2
Salesforce · EntityDefinition	1	**Salesforce · Utente**	1
Salesforce · Evento	1	Tabella senza relazioni	2

Leggenda

Transazionale
Installazione
Aspetti tecnici
Valori hardcoded
Descritto in un altro argomento

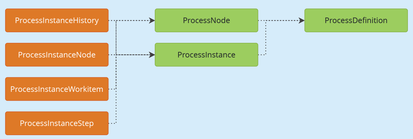

Chiave dichiarata
Relazione descritta a parole
Candidato derivato dai nomi delle colonne

In grassetto: una tabella molto diffusa
+Bulk, +Read: la tabella è disponibile anche in queste varianti
×n: n relazioni tra le stesse tabelle

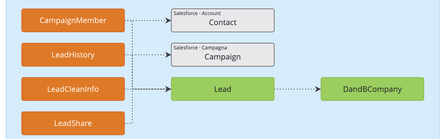

Generato dai metadati di Invantive UniversalSQL - il 01-11-2026. Ogni tabella rimanda alla relativa pagina con le colonne, le chiavi e le Query di esempio.
